

## MAC Grants proposal

**Sponsor:** Michelle Raven and other interested parties. 907-715-1540 and [Michelle\\_Raven@yahoo.com](mailto:Michelle_Raven@yahoo.com).

The project- have an independent attorney review and gather, if necessary, the documents needed to help the community understand the current status of road ownership within the Original Townsite of McCarthy. This is a research project only. This grant is not to initiate court action.

A specific explanation (with dollar amounts) of how the Community Assistance funds from MAC will be matched by money/labor/materials from community members and/or from external funding sources (other than MAC).

Thus far:

The attorney has given 1 hour in pre-liminary review at \$300 per hour = \$300  
Michelle Raven has donated 19 hours in preliminary research at \$30 per hour = \$570  
Athena Swinford has donated 10 hours at \$30 per hour=\$300

I am seeking 2400 from MAC 3,430 project total

2400 mac ask=70%

1030 fundraise=30%

1030 is minimum needed to fundraise

1 donor has offered \$250 thus far. We will collect the balance in monetary donations in order to pay the attorney his fees for review of the documents and an unbiased written opinion as to where that leaves road ownership and what actions, if any, would be necessary to legally finalize the hard work that previous community members have already put into this.

There is enough interest in this project and enough understanding of the importance of it that several community members are willing to donate what is required to make this happen.
